

codefest RULEBOOK

A junior team can only be made of participants that are up to 16 years* old.

* should not be older than 16 years as of 30th April 2017

A student team qualifies as being a student from 17 years old up to master studies.

A pro team qualifies as a non student in any way.

Any team that brings any sort of prepared work will cause their whole team to be disqualified from the competition.

Any team that works on an idea that they did not apply with will cause their whole team to be disqualified from the competition.
Teams are not allowed to change the ideas after applying.

Teams are allowed to use any combination of technologies that they desire. We invite you to create applications for any platform that you want.

codefest RULEBOOK RULE#6

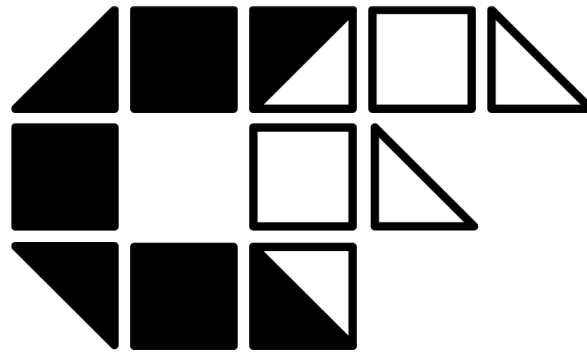

The products will be marked according to few criteria:
the business potential of the idea, completeness and innovative
aspect of the idea, UI/UX, platform integration (multi platform),
completeness of the core product within the 32 hours,
marketability, etc.

Teams are allowed to use online resources during Codefest Marathon, but they are not allowed to use a full project tutorial and/or plagiarize in any way.

The voting and marking of the winning products will be done by a group of judges, experts from different fields in tech, innovation, entrepreneurship, etc. The details about the voting process will be published additionally in a Voting Rulebook.

Please follow and respect the Codefest Rulebook at all times.
